DETAILED ACTION

Reissue Applications

The amendment filed 1/20/09 proposes amendments to the claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

Note that all amendments should be made with respect to the ORIGINAL PATENT and not the previous amendment. Therefore any claims newly added with respect to the patent should be underlined in their entirety and markings made to show all changes made to original patent claims.

The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414.

In the most recently filed oath, from 1/20/09, applicant describes the error with respect to claim 1 as claiming more than they had a right to claim (i.e. being too broad). However, original patent claim 13 was already even broader than the coverage provided by the scope of original patent claim 1 and claim 13 has not been amended. See MPEP 1402 which explicitly states: "*A reissue application in which the only error specified to support reissue is the failure to include one or more claims that is/are narrower than at*

least one of the existing patent claim(s) without an allegation that one or more of the broader patent claim(s) is/are too broad together with an amendment to such claim(s), does not meet the requirements of 35 U.S.C. 251. Such a reissue application should not be allowed. "

Claims 1, 3-42, 44-47 and 49-95 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.
